'MINDI'

Mindi came into my life in 2006, as a companion to Pandora, after being used as a breeding dog.

Although very nervous at first, as previously her exposure to life had been limited, she approached everything she did with total joy & enthusiasm.

She loved & excelled in Agility, but when we had to turn to other sports, due to my lack of mobility, she excelled in those too. She gained 98/100 in each of her only two CCD trials entered! She was just happy to be doing anything as long as we were together.

Pandora & I miss you sweet little girl with your big eyes & continually wagging tail, but you will always be in my heart. Run & dance free.

Ouch!!! That hurts!

Tips for teaching bite inhibition & gentle mouthing play

Puppies spend a great deal of time playing, chewing & investigating everything. During these normal activities puppies use their mouths & their needle-sharp teeth. When puppies play with people, they often bite, chew & mouth on people's hands, limbs & clothing. This kind of behaviour may seem cute when your puppy is eight weeks old, but it's not nearly so endearing when they're three or four months old & getting bigger by the day!

It's important puppies learn to curb their mouthy behaviour very early on in their training.

They have to learn people have very sensitive skin & so they must be very gentle when using their mouths.

Bite Inhibition: Teach Your Puppy to Be Gentle

Bite inhibition refers to a dog's ability to control the force of his mouthing. A puppy who hasn't learned bite inhibition doesn't recognise the sensitivity of human skin, so they bite too hard, even in play.

Puppies usually learn bite inhibition during play with other puppies. If you watch a group playing, you'll see plenty of chasing, pouncing & wrestling. Puppies also bite each other all over. Every now & then, a pup will bite his playmate too hard. The victim of the painful bite, yelps & usually stops playing. The offender is often taken aback by the yelp & also stops playing for a moment. However, pretty soon, both playmates are back in the game. Through this kind of interaction, puppies learn to control the intensity of their bites so that no one gets hurt & the play can continue without interruption. If puppies can learn to be gentle with each other, they can also learn the same lesson with people.

When you play with your puppy let them investigate & lick your hands but if their mouthing shows any sign of becoming rough or they actually bite, the game must stop.

You need to immediately give a high-pitched yelp, as if you're hurt & let your hand go limp. This should startle your puppy & cause them to stop mouthing you, at least momentarily. (If your 'yelping' seems to have no effect, you can say 'Arrgh' or 'Ooh ooh' in a deep, stern voice instead.)

Praise your puppy for stopping the mouthing, backing off or for gently licking you.

Next, resume whatever you were doing before. If your puppy starts to get rough or bites you hard again, repeat your high pitched yelp & the 'Arrgh' correction cue.

If you find that yelping alone doesn't work, you can switch to a time-out procedure. Time-outs are often very effective for curbing mouthing in puppies.

If your puppy delivers a hard bite, yelp loudly & ignore him for 10 to 20 seconds. If he starts mouthing you again, get up & move away for 10 to 20 seconds.

After the short time-out, return to your puppy & encourage them to play with you again. It's important to teach them that **gentle** play **continues**, but **painful** play **stops**.

Play with your puppy until the inevitable happens & the mouthing becomes rough again. When it does, repeat the sequence above.

When your puppy isn't delivering really hard bites anymore, you can tighten up your rules a little. Require your puppy to be even gentler. Yelp & stop play in response to **moderately** hard bites. Persist with the process of yelping & ignoring &/or time-out for the hardest bites. As those disappear, do the same for the next-hardest bites & so on, until your puppy can play with your hands very gently, controlling the force of their mouthing so that you feel little or no pressure at all.

Other things you can use to teach teeth don't belong on human skin!

- Substitute a toy or chew bone when your puppy tries to gnaw on fingers or toes.
- If your puppy nips at your feet & ankles, carry their favourite tug toy in your pocket. If they ambush you, instantly stop moving your feet. Substitute the tug toy & encourage your puppy to grab the it. Praise as soon as they take hold of the toy.
- If you don't happen to have the toy in your pocket, just freeze, say the 'Arrgh' cue word & wait for your puppy to stop mouthing you. The second they stop, praise & take them with you to get a toy as a reward. Repeat these steps until your puppy gets used to watching you move around without going after your feet or ankles.
- Be patient & understanding. **Playful mouthing is normal behaviour for a puppy.**

General Hints

- Avoid waving your fingers or toes in your puppy's face or slapping the sides of their face to entice them to play. This only encourages biting & nipping of hands & feet.
- Do not discourage your puppy from playing with you in general. Play builds a strong bond between a dog & their human family. You want to teach your puppy to play gently, rather than not at all.
- Avoid jerking your hands or feet away from your puppy when they mouth. This will encourage them to jump forward & grab at you. It's much more effective to let your hands or feet go limp so they are no longer fun to play with.

Slapping or hitting puppies for playful mouthing may cause them to bite harder. They usually react by playing more aggressively.

Physical punishment can make your puppy afraid of you & can cause fear aggression.

This is an unwanted problem that is very difficult to overcome!

Avoid scruff shaking, whacking your pup's nose, sticking your fingers down their throat & all other punishments that might hurt or scare them.

Ku-ring-gai Council's Dogs Day Out on 30 March

We provided a varied program showcasing many of the club's activities.

Marching to Music with Judy Perrin & Fernie, Gael Goldsack & Tilly, Penny Dalzell & Enniskey, Tricia Nicola & Pandora, Gila Levy & Tessa & Ginny Legh & Bonny.

Dances with Dogs were performed by Penny with Enniskey, Judy Turley with Baillie & Geordie & Gila with Tessa.

All the dogs & their owners took part in showing off their special tricks, some easy, some highly skilled!

Sam Welch, one of our junior members with his Border Collie puppy, Lucy, showed the exercises we teach in our puppy classes under the direction of his puppy class instructor, Sharon Househam.

We had two simple Rally O courses set up & John Jonker & Anna Uther took many members of the public through the exercises.

Pam Rutledge manned the info table, explaining what we offer & answering membership enquiries. A number of people have since joined the club.

Vickie Dean did a wonderful job behind the microphone, describing what the dogs & their owners were doing & explaining some of the expertise required to train a dog to the high standards on display.

Penny Dalzell provided a tricks workshop for members of the public with the dogs learning to do a few simple tricks, like Hi 5, roll over & shake hands.

We provided the huge crowd with a terrific BBQ serving hamburgers, bacon & egg or sausage sandwiches & home made cakes. Thanks to Sharon Househam, Karen Ortado, Nicholas Gray, Barbara Allen, Sue Hunter, Will Bosma & all the others who helped fill empty tummies. Yum!!!

NSDTC Inc VACCINATION POLICY

Up-dated September 2010

- NSDTC requires a minimum C3 (distemper, hepatitis, parvovirus) vaccination administered after the age of 12 weeks for all puppies less than 12 months old.
Please Note. A delay of two weeks after the final puppy vaccinations is required before puppies are permitted to join classes.
- All adult dogs (over 12 months old) joining or renewing, must have had at least a C3 vaccination administered after 12 months of age. Triennial (3-yearly) C3 vaccination is considered acceptable thereafter.
- Dogs joining or renewing over the age of 4 years that have not had a C3 vaccination in the preceding 3 years must be referred to the Club Vet officer or official nominee.
- Veterinary certificates showing adequate antibody titres* to distemper, hepatitis & parvovirus will be accepted by NSDTC for all adult dogs as long as they are dated within the preceding 12 months.
*Adequate antibody titres for distemper, hepatitis & parvovirus are considered to be > 1: 20
- As Bordetella & Parainfluenza (both agents causing canine cough) are not generally life threatening to healthy dogs, these vaccinations would be optional, but recommended & owners are reminded these may be required by boarding kennels.
- All vaccination & antibody titre certificates must be signed by a registered veterinary surgeon.
- Homeopathic 'vaccinations' will **not** be accepted.

PARKING

- **Please park on the LEFT of the road as you enter the showground or near the picnic area beside the Douglas Pickering Pavilion.**
- The parking area on the right, nearer the Clubhouse, is for 'on duty' Club Members who need to leave their dogs in the car, carry equipment, etc. Thank you.

CLUB & USE of GROUND GUIDELINES

These guidelines are for the benefit of all members & the general public who use St Ives Showground.

- All dogs must be on lead during club training times (except when off lead work is directed by an instructor during class).
- Dog droppings must be cleaned up & placed in a bin.
- Always wear your name tag.
- The dog rings are a leash free area EXCEPT on Saturdays.
- The main oval may be used for leash free exercise, so long as no other organised event is taking place.
